OZONE THERAPY Certification Course

Program Length: 30 hrs online + 6 hrs practicum

Course Type: Certificate

Delivery Method: In-class, Online

Students: Domestic, International

NOC Code: Median Wage \$00/hour

OZONE THERAPY CERTIFICATION COURSE

Program Overview

We specialize in educating and training Medical Doctors, Dentists and Nurses to Allied Health Professionals, to develop the scientific principles and clinical understanding, to attain the expertise to perform medical ozone in their practice.

We provide Medical Ozone Courses in two main fields:

They are Clinical and Non-Clinical areas of healthcare.

The Clinical Field covers medical ozone application that involves blood work and injectables.

The Non-Clinical Field includes medical ozone applications such as Insufflation and Transdermal infusions.

Clinical Medical Ozone Courses are orientated explicitly towards doctors, dentists and nurses who are over-sighted by a clinical director who is onsite.

Allied Health Professionals and Natural Health Professionals that come from a Clinical or Allied Health Professional background can register for the Non-Clinical Medical Ozone Course.

Our training focuses on preparing the practitioner to understand the primary scientific principles and applications of Medical Ozone.

FCC encourages the practice of "The Low Dose Concept" when practicing Medical Ozone in Clinical and Non-Clinical fields.

Our Medical Ozone Courses ensure a Good Practice Policy, Health

and Safety, Standard Protocols and enforces Independent Audited Certification, for Handling Medical Oxygen Gas, for practitioners in the Non-Clinical Field.

Our courses and training involve the Theory of Medical Ozone and Live Training Practical's.

All Theory courses are online, and All Live Training Practical courses are at a training venue.

Our practical training incorporates some online materials to support you during and post practical training.

Additionally, the Live Practical course has a practical assessment, whereby each practitioner must demonstrate their ability to be compliant, to all health and safety procedures and regulations in setting up the ozone equipment, the handling of oxygen cylinders and performing the collection and use of medical ozone gas in clinical or non-clinical procedures.

All practitioners are given one Month to complete their course.

Medical Ozone can affect our body's biochemistry and physiological effects, you will gain the technical and scientific competence to improve your client management, see an acceleration in recovery time, stabilize multiple symptoms and a reduction in client relapses.

Combined with the "Holistic Health Approach" Medical Ozone becomes a potent tool in navigating and facilitating your client's health to achieve and maintain their health naturally.

"Medical Ozone is Pioneering The Holistic Health Approach" into the 21st century and is a fundamental tool, for All Healthcare Professionals, to achieve superior client management strategies

OZONE THERAPY COURSE BREAKDOWN

Program Length: 30 hrs online + 6 hrs practicum

Course Type: Certification
